LA County to Update Floodplain Management Plan

LA County is embarking on a planning process to help reduce the levels of flood risk within County unincorporated communities by identifying flood-prone areas and educating property owners. As a result of these activities, County residents will receive comprehensive information on the level of flood risk within their communities and have access to flood insurance premiums at discounted rates.

Local knowledge of flood-related hazards is a vital component of this study. The County is seeking the public's help to compile flooding incident information during open house events on December 3, from 4-7 p.m., at the Malibou Lake Mountain Club, 29033 Lake Vista Drive, Agoura, and again on January 10, 2015, from 2 to 5 p.m., at the Altadena Community Library, 600 East Mariposa Street, Altadena. The open house format of the meetings will allow residents to join when it is convenient for them.

The planning process is expected to take approximately 12 months to complete and is being overseen by a steering committee of stakeholders from within the planning area. Steering committee meetings are open to the public and held at LA County Public Works Headquarters, located at 900 S. Fremont Avenue, Alhambra 91803.

Visit the Floodplain Management Plan website at www.dpw.lacounty.gov/wmd/nfip/fmp/index.cfm or future meeting dates and times and to learn more about how to participate
